## Efficiency Savings Hot Water

### Introducing the Voltex® MAX Smart Hybrid Electric Heat Pump Water Heater

For Maximum savings, maximum hot water and maximum tank protection, when you want the best choose Voltex® MAX. Using innovative smart valve technology, Voltex MAX delivers up to 40% more hot water when you need it and efficient heat pump performance all the time.

#### Smart Design:

- **Hot Water+:** For long term increased hot water delivery, this new operating mode offers three levels of boosted performance allowing end users to get up to 40% more hot water
- **Guest Mode:** For short term increased hot water need, this new operating mode boosts hot water output to maximum levels for up to seven days
- **iCOMM™** Smart Connectivity Compatible through the A. O. Smith App

#### Exceptional Performance:

- 4X more efficient than standard electric
- Saves more than \$600 in annual energy costs
- Whisper quiet 45 dBA operation
- Cools and dehumidifies the surrounding areas

#### Easy Install:

- Zero clearance required on sides and back for tight spaces
- Contractor preferred top connections
- Integrated ducting adapters for confined install

**4X**  
More Efficient  
+  
**40%**  
More Hot Water

### Hot Water+ Mode:

- Operates simultaneously with Hybrid, Heat Pump or Electric Mode.
- Allows the user to enable three levels of increasing performance while maintaining the temperature set point. Press the Hot Water + button again to increase hot water performance.

### Guest Mode:

- Provides maximum performance and capacity for higher than normal hot water usage. Selecting this mode may increase energy consumption.
